EDUCATION

California Polytechnic State University | San Luis Obispo

B.S Candidate in Computer Science (Privacy & Security), Minor in Accounting (GPA: 3.949)

Expected May 2027

Relevant Coursework: Introduction to Computer Science, Data Structures, Project-Based Object-Oriented Programming, Computer Organization, Discrete Structures

Honors: Dean's List Fall 2024, Dean's List Winter 2025, Dean's List Spring 2025, President's List 2024-2025

Academic Involvement

Huntington Beach High School Model United Nation

Huntington Beach, California

Member (2020-2023)/ Senior Teacher (2023-2024)

September 2020 - June 2024

- Member of a 300+ person internationally ranked Model United Nations program that consistently won top awards and recognition across 15+ annual conferences
- Won top awards at all 16+ conferences attended, training my research skills, public speaking, and leadership.
- One of nine senior teachers that mentored 38+ freshmen, preparing them with the fundamentals of Model United Nations, speech, and debate.

California Polytechnic Security Education Club

San Luis Obispo, California

Corporate Liaison

November 2024 - Present

- Reach out to 100+ individuals across 50+ companies, demonstrating professionalism and social skills
- Planned and executed 25+ annual events, including technical talks, corporate partnerships, and sponsored Capture the Flag (CTF) competitions to promote hands-on security education.
- Represent California Polytechnic Security Education Club as its spokesperson, advocating for student involvement in cybersecurity

Korean American Student Association

San Luis Obispo, California

Vice President

February 2024- Present

- Lead and manage a team of 18+ board members to plan and execute cultural, social, and community events.
- Oversee administrative responsibilities, including handling Associated Students, Inc. (ASI) compliance and paperwork.
- Coordinate and spearhead large-scale cultural events serving 250+ members, strengthening community engagement and visibility on campus.

Projects

Virtual World | Java, VS Code, GitHub

March 2025 - June 2025

- Applied object-oriented programming principles to create a modular and scalable virtual world system, with classes, interfaces, and abstract classes
- Ensured virtual world's realism by implementing enhanced algorithm for smoother character movement from one class to a different class
- Created UML diagrams to document architecture and define component interactions within the world.

Fake News Detection System | Python, VS Code, Github

June 2025- Present

- Developed a machine learning pipeline to classify fake vs. real news articles
- Built text preprocessing pipeline leveraging regex cleaning, stopword removal, and TF-IDF vectorization to improve feature quality and model accuracy
- Implemented models and evaluation workflows using scikit-learn and XGBoost to streamline training and testing

SKILLS AND INTERESTS

Programming Languages: Python, Java, C, Assembly

Languages: English, Spanish (Limited Proficiency)

Skills: Public Speaking, Event Planning, Leadership, Teamwork, Research, Communication, Time Management

Interests: Artificial Intelligence, Cybersecurity, Music, Surfing, Football
